Re: PROTEST Change Application #55-12670 (a40540) Carl and Geri Draper Family Trust, Val and Kathy Draper Family Trust.

From: Wallsburg Irrigation Company. P.O.Box 191 Wallsburg, Utah 84082 C/O Toney Johnson

Date: April 14th 2015

The Wallsburg Irrigation Company protests the proposed change application #55-12670 (a40540) in the name of Carl and Geri Draper Family Trust. The above mentioned water right cannot be held in trust because it is a high water right and legally owned by the state as a high water right available only when Mother Nature allows for overflow. They only have the right to use it during irrigation season and it has very little monetary value due to unpredictable flow.

The Draper estates was constructed with no community input or verification of surrender able water rights. Boren ditch does not and will not constitute an equitable exchange from questionable high water to the conversion of a well for irrigation and domestic use.

We await a decision and ask for diligence when researching the Boren Ditch that was never set up for year round water. Please send any information to: Wallsburg Irrigation Company. P.O.Box 191 Wallsburg, Utah 84082. C/O, Toney Johnson (President)

Signed:  Toney Johnson, (President)
